Natural Health for Pigeons

Pigeon Health Catalogue

Your complete guide to the full range of Hilton Herbs Products. Comprehensive and user-friendly.

Welcome to Hilton Herbs Turning Nature into Health

Welcome to our new catalogue for pigeon fanciers. We hope you will find exactly what you need in the following pages to help keep your birds fit and healthy regardless of whether they are training, racing, showing, breeding or rearing.

Since 1989, when we first started Hilton Herbs, we have supplied many fanciers with a variety of herbal products for their birds. We are now getting so many enquiries that we have decided to create a catalogue especially for you!

All our pure herbal products are manufactured here, at Downclose Farm, in a purpose built facility. We never compromise on the quality of our ingredients, and we back up our products with an in-depth knowledge of herbal medicine. Our products do not contain fillers, additives, or animal by-products, only medicinal grade herbs.

Our Helpline is vital to the success of our business. It has been there since the beginning and we are proud of its role in providing our customers with a friendly, knowledgeable, point of contact.

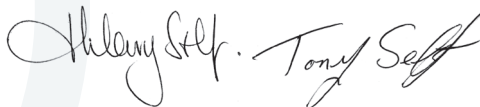

In the wild birds know instinctively how to self-select a wide variety of plants, herbs, grasses, seeds, roots and fruits, to help them maintain overall good health and freedom from internal parasites.

Unfortunately domesticated birds may not have access to these same health giving plants. This inability to obtain fresh plants and seeds may ultimately affect their overall health and fitness.

Add to this the stresses of breeding, rearing, travelling, racing, showing, parasites and the moult, and it is no wonder their health may be affected.

We believe that by using the appropriate herbal supplements, in conjunction with a good diet, clean healthy housing, and freedom to exercise, we can greatly enhance the health of your birds. Herbs will reconnect them to their origins, giving them the power to maintain prime health as their wild cousins do.

We hope you have success using our products to help keep your birds in the very best condition whatever their age or activity. We wish all our customers and their birds the very best of health and happiness. Thank you for helping us to continue 'Turning Nature into Health'.

Liquid Products

All our liquid products are packed in easy-to-use plastic bottles with an integrated measuring tank marked from 10 – 25ml. Full ingredients listing, feeding guide and storage instructions are provided on the label.

Directions for use: You can administer our liquid products by one of the following methods.

Method 1 Shake well before each use.

Add 20 drops per 100ml of drinking water (1ml = 20 drops)

or Add 10ml to every 1 litre of drinking water

Replenish every time drinking water is renewed or changed.

Method 2 Shake well before each use.

Add 10ml to every 1kg of corn/feed. Mix well to ensure surface of corn is well covered. Leave to dry and then feed.

Method 3 Shake well before each use.

Add 10ml to every 1kg of corn/feed. Mix well to ensure surface of corn is well covered. Add dry supplement as required (eg. Biotic Pigeon, Garlic powder, Brewers yeast). Mix well to ensure surface of corn is well covered. Feed immediately.

Dry Products

Damp surface of corn (eg. use one of our liquid products)

Add a scoop of the dry product to corn. Mix well to cover corn and feed immediately.

Please note that an appropriate size scoop is contained in each of our dry products.

N.B. You can use any of our Natural Health for Pigeons products in conjunction with each other.

Super Fit

Specifically formulated for use during training and competition. Contains herbs known for their ability to help maintain:

- Stamina
- Uptake of oxygen by cells
- Effective removal of lactic acid from the cells
- Detox of waste products
- Healthy liver and kidney function
- Healthy lung function
- Resistance to stress and fatigue
- Ability to withstand adverse environmental pressure

- Strong immunity
- Good circulation
- Clear, healthy eyesight
- Vitamin B12 levels vital for red blood cell production and healthy nervous system
- High levels of anti-oxidants

Use: Every day during the training and racing season. We recommend using Super Fit in combination with Re-Coop Plus and Biotic Pigeon for fast recovery after racing.

27004	500ml

Pigeon Health

Re-Coop Plus

To help detox your birds after racing. The natural phenols in oregano and thyme have been shown to help maintain a healthy digestion and firm droppings. This unique formulation contains both oregano and thyme as well as other herbs selected for their anti-bacterial and anti-fungal actions and their ability to help maintain:

- Removal of lactic acid from cells
- Fast recuperation
- Firm droppings
- Clearance of blood toxins
- Liver and kidney function
- Balanced digestive gut flora
- Resistance to digestive & respiratory infection

Use: We recommend using Re-Coop Plus for 2-3 days after racing and if necessary in conjunction with Biotic Pigeon.

Code	Size
27012	250ml
27014	500ml

Hydro Lyte

To help your birds maintain electrolyte balance and proper hydration. A tasty easily dissolved appetising powder that can either be added to drinking water, or to corn.

Use Hydro Lyte to ensure:

- Birds are properly hydrated and their electrolytes are balanced prior to racing
- Proper hydration of birds will help reduce risk of dehydration and gut micro flora imbalance
- Vital electrolyte balance and increased rehydration of birds post racing

Use: We recommend using Hydro Lyte for two days before basketing, day of basketing and for 48 hours after racing.

Code	Size
27022	250g tub
27024	500g tub

Biotic Pigeon

This dry formulation contains powdered herbs and a probiotic to help soothe and maintain a balanced healthy digestive system. To help your birds maintain:

- Healthy gut bacteria and micro flora
- Healthy gut condition and droppings
- Strong resistance to bacterial or fungal infection
- Efficient absorption of feed nutrients

Use: We recommend using Biotic Pigeon at the first sign of wet droppings or digestive upsets, after anti-biotics and medication, or as and when needed.

Directions: Lightly dampen the surface of the corn (eg. use Re-Coop Plus) and add one rounded 10ml scoop to every 500g of corn. Mix well to cover the corn and feed immediately. Feed until droppings return to normal.

A 10ml scoop is included in each tub

Code	Size
27032	100g tub
27034	250g tub

Airborne

This natural herbal product will help maintain your birds' respiratory system in the peak of health and ensure super white wattles. Airborne contains herbs that have been carefully selected for their anti-fungal and anti-bacterial actions and their ability to maintain:

- Clear and healthy lungs, airways, and sinuses
- Resistance to airborne allergens and irritants
- Healthy mucous membranes
- Resistance to fungal and bacterial infections
- Bright eyes and clear healthy eyesight

Use: We recommend using Airborne whenever your birds' respiratory system is under pressure and needs that extra bit of support.

Immunity Plus

When birds are racing, breeding, training, or moulting, their immune systems are under additional pressure. This herbal solution is rich in Echinacea purpurea and Siberian ginseng, herbs known for their ability to help maintain stamina, a strong immune system, resistance to stress, and fast recovery rates. In addition Immunity Plus contains herbs rich in minerals and vitamins and with anti-oxidant, anti-bacterial, anti-fungal and adaptogenic actions which will help your birds maintain:

- Strong natural immunity
- Fast recovery rates
- Resistance to infection
- Anti-oxidant levels
- Efficient lymphatic system
- Production and renewal of white blood cells
- Resistance to effects of stress
- Mineral, trace element and vitamin levels

Use: We recommend using Immunity Plus at any time when your birds may be under additional stress such as racing, travelling, showing, rearing, or when mixing with other birds.

Code	Size
27052	250ml
27054	500ml

Supersonic

This oil rich supplement can be added to corn to help provide a readily available source of energy. This tasty appetising product provides:

- A non cereal source of energy
- Anti-oxidant action
- Omega – 3 & 6 essential fatty acids for healthy nerve and cell renewal
- Strong feather growth
- Proteins, amino acids, vitamins A, B, C, E, and plant steroids

Use: We recommend using this product daily during training to help improve energy levels and as a readily available energy source for all distances of racing. Supersonic is also ideal for show birds and for use during the moult, when the high oil content and herbs encourage shedding of feathers and strong healthy feather regrowth.

Directions: Damp the surface of the corn and add one rounded 15ml scoop of Supersonic to every 500g of corn. Mix well to cover corn and feed immediately. To avoid oxidation of the oils in the product we advise that the tub is kept tightly closed when not in use, and if possible store in a refrigerator.

A 15ml scoop is included in each tub.

Pigeon Health

Daily Herb Power

Suitable for all pigeons, whether they are breeding, rearing, training, racing, showing, or moulting.

Rich in natural phenols, anti-bacterials, anti-fungals, anti-oxidants, vitamins, Beta Carotene, B1, B2, B12, C, D, and E. Daily Herb Power contains twenty amino acids, minerals and trace elements such as iodine, iron, sulphur, calcium, copper, magnesium, selenium, and biotin. Nature's most effective plants brought together in a carefully formulated and balanced blend to help your birds maintain optimum health all year round.

Containing herbs and fruits that wild birds would seek out for themselves to help them maintain:

- Overall general health and vitality
- Resistance to parasites
- Egg quality and production
- Bone and muscle development
- Resistance to Protozoa
- Efficient digestive system
- Superb feather and skin condition
- Depth of feather pigmentation
- Efficient circulation
- Healthy nervous system
- Effective liver and kidney function
- Efficient respiratory system

Use: We recommend using Daily Herb Power at least 3 times a week, as a general tonic. Use daily when birds are under particular stress such as training, racing, travelling, showing, moulting etc.

Himalayan Salt Licks

Our pigeon fanciers tell us their birds just love these licks. The distinctive rose pink colour comes from the salts' high mineral content, such as iron, potassium and magnesium, all vital for maintaining health. Complete with rope for hanging up in the loft these licks will not only provide essential minerals but also an activity for the birds.

Code	Size
26000	Baby: approx 1kg

Larger sizes available.

Cider Vinegar

All the goodness of the original apple in a bottle! Apple cider vinegar has a long tradition of use as a healthy food supplement for all animals and birds. Rich in potassium, phosphorus, sodium, calcium, iron and trace elements. Our human-grade cider vinegar is made from the whole apple, not just the pulp left over after juicing. Add to water to maintain overall good health and vitality for the whole loft.

Other products for pigeons available from Hilton Herbs

Aniseed – Tasty appetite stimulant for all birds, use for shy feeders and to encourage eating up.

Seaweed – Harvested from the Norwegian seas, rich in iodine, vitamins, minerals and trace elements. A natural supplement known for its ability to support healthy feather growth, pigmentation, and renewal.

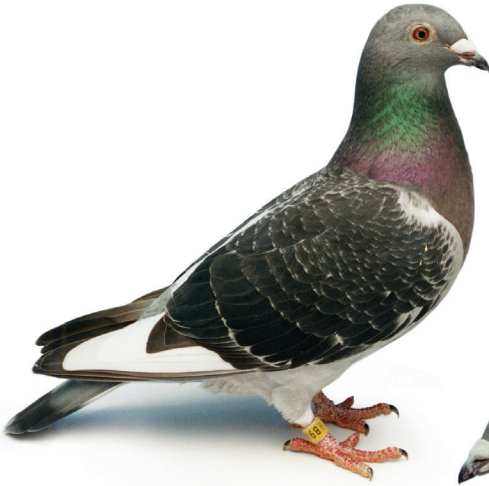

Wormwood herb – to help maintain a healthy resistance to parasites

First Essential – The all-natural spray for minor wounds, and abrasions that no fancier should be without. Combining soothing Aloe vera, cleansing Tea Tree essential oil and plant tinctures with anti-fungal and anti-bacterial properties. This easy to use spray bottle allows you to reach even the most awkward places on the body.

Hilton Phytobalm – All-purpose soothing herbal cream with anti-fungal and anti-bacterial properties. Easy to apply, quickly absorbed and safe on even the most sensitive skin. Use for cuts, minor wounds, abrasions, particularly recommended for skin that is slow to heal or has a 'wet' appearance.

Space Spray – Easy-to-use fresh smelling product contains a blend of top quality essential oils selected for their anti-fungal and anti-bacterial action. We recommend using this product in areas of restricted air movement, and to maintain air freshness and quality.

Bach Flower Recovery Remedy – The all-purpose comforter, add to water whenever birds are stressed or anxious. Can be put into a spray bottle and misted into the air.

Two champions raced by Mike Staddon of Crewkerne, Somerset, who uses natural products to keep his birds fit, fast, and healthy during training and racing.

Mike Staddon recommends using natural herbal products to help ensure your birds maintain: A healthy immune system, high levels of fitness, stamina, natural resistance to infection, fast recuperation after racing and outstanding results.

Mike Staddon is happy to speak to other fanciers about his experience of using Hilton Herbs and other natural herbal products for pigeons, and can be contacted on: 01460 76458
